

Dye Printed Square Scarves

How to place an Order

1. Send a logo, a colour scheme and if possible a design brief. You will then receive a selection of designs for approval.
2. From approval of the artwork, a pre-production sample is made to show the actual colours, detail achieved, and print quality. This will take 2/3 weeks.
3. On approval of the printed sample, your goods will be dispatched in 3-4 weeks by courier on a next working day service.

Design information

For printed square scarves, there are very few design constraints. We suggest using silk fabrics if your design needs very fine levels of detail, especially in small areas.

Care Instructions

All of our square scarves are supplied with a hand wash with care label.

Available in Polyester and 100% Silk.

Specification and Options

Fabric- We use a flat weave fabric as standard, as this produces the best results in terms of clarity and handle of the square scarf. We can however offer a choice of other fabrics, which include, crepe, satin and voile.

Colours- Any non-metallic colour can be reproduced by matching to a pantone shade, a swatch of fabric or artwork. Vibrant colours are easily achieved. There is no restriction on the number of colours in a design, although a high number of colours will increase the costs.

Sizing and style- Our standard square scarf measures 80cm x 80cm. We are also able to offer different sizes and styles which can include triangular scarves.

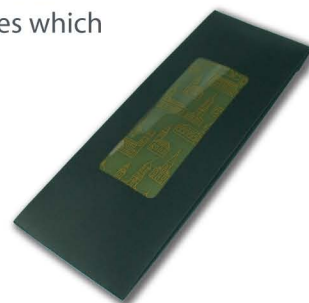

Flat hem

Rolled hem

Bespoke and care labels

Stock plain wallet

Stock plain box

Optional Extras

Labels- Bespoke woven or printed label on, additional cost. Quality and care label is standard.

Wallet- Either plain black or bespoke with printing.

Scarf boxes- Plain black or bespoke, options include flat box, fabric covered lids which can be hinged. (See options sheet).

Rolled hem- The standard finish is a machine flat stitch hem. A rolled hem can give a luxurious look especially on silk.
